

NSFFMC-1 Communication Set for FFM

HERMES-1 | Communication set for Interspiro Divator FFM

The HERMES-1 is a communication set made for the Interspiro Divator full face mask. The set consists of a microphone module and two earphone modules. The Earphone module consists of a housing with a bone conductor inside it. This makes it so that the entire housing becomes the speaker. The effect is a good quality sound on both ears.

The microphone module is the center of the set. This module is screwed by hand to the mask with two screws, this makes it a watertight seal to prevent any water from entering the mask. The module is connected to the earphone modules with a robust cable. The connector is also connected to the microphone module.

HERMES-C1 mounted on Interspiro DIVATOR

NOTE : INTERSPIRO Divator FFM not included, sold separately.

Configurations :

- NSFFMC-1A
- NSFFM C-1B
- NSFFM C-1C

Features:

- 2 earpieces
- Clear voice
- Compatible with Interspiro Divator FFM

Applications:

- Commercial Diving
- Camera crews
- Marine scientists

NSFFMC-1 Communication Set for FFM

Specifications :

Model	NSFFMC-1A	NSFFMC-1B	NSFFMC-1C
Fits on mask	Interspiro Divator full face mask		
Working Depth	100 m		
Mic Module			
Impedance	150 ohm		
Size	50 x 47 x 40 mm		
Weigth	77gr. (In air), 16gr. (In water)		
Housing Material	Acetal Copolymer (POM-C)		
Earphone Module			
Cable Length	350 mm each		
Power	1W RMS / 2W Max each		
Impedance	8 Ohm each		
Size	Ø45 x 13,1 mm each		
Weight	40gr. (In air), 12gr. (In water) each		
Housing Material	Acetal Copolymer (POM-C)		
Connector	SCIL4M	HI-USE	RMG-4-MP-KM
Pin 1	Head	Mic	Mic
Pin 2	Mic	Mic	Mic
Pin 3	Mic	Head	Head
Pin 4	Head	Head	Head
Cable length	60 cm
